- ChatGPT: chatgpt.com
 - I used chatgpt for research and coding purposes. Specifically, I had it help me connect and download data from the NBA API, answer questions and make suggestions when my code was breaking, and help research how to frame the model features I wanted to include in Python.
- I got the idea to use a Random Forest Algorithm from Soliman, Misbah, El-Nabawy, Eldawlatly 2017: <https://ieeexplore.ieee.org/stamp/stamp.jsp?tp=&arnumber=8324371>
- Although I don't use PER in my model, I thought I might for awhile thanks to John Hollinger: <https://www.basketball-reference.com/about/per.html>
